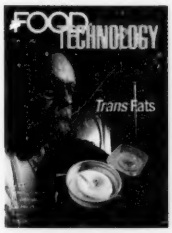
FOOD TECHNOLOGY

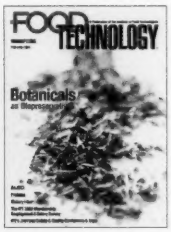
2004 INDEXES

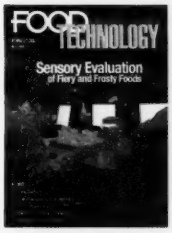
Volume 58, 2004

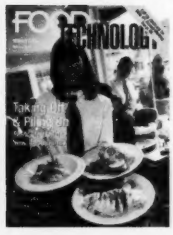
SUBJECT INDEX 107

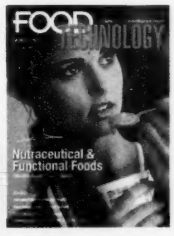
AUTHOR INDEX 110











SUBJECT INDEX

Issue number appears in parentheses, followed by the page number.

Antioxidants
dietary antioxidants (10)67
dietary antioxidants—risk or relief? (11)20
phenolic antioxidants and prevention of chronic inflammation (11)42

Authenticity
developing ethnic foods and ethnic flair with spices (8)35
DNA tests identifies animal species in food products (8)44

Back Page column
biotech labeling still unresolved in codex (6)208
communicating the benefits of functional foods (12)128
farmed salmon: caught in a numbers game (2)108
food irradiation future still bright (7)112
getting off the road to obesity (5)100
GMO traceability requirements expand (3)124
here, there, everywhere: antibiotic-resistant foodborne pathogens (4)104
how now, mad cow? (1)100
making codex more effective (10)100
pathological science (11)108
preparing for bioterriorism though simulation (8)108
what does "sustainability" mean to the food industry? (9)160

Biotechnology
biotech labeling still unresolved in Codex (6)208
DNA tests identifies animal species in food products (8)44
GMO traceability requirements expand (3)124
taste modification in the biotech era (5)24

Bioterrorism
preparing for bioterriorism though simulation (8)108

Books Received
(1)79, (7)92, (11)88

Buyer's Guides
Annual Guide to Food Industry Services (3)73
IFT buyer guides available online (2)89
Nutraceuticals & Functional Foods Buyer's Guide (12)41

Carbohydrates
carbohydrates: to count or not to count (5)38
dietary fiber: still no accepted definition (5)70
enzymes: tools for creating healthier and safer foods (4)20
fortifying with fiber (2)71
going with the grains (2)71
low-carb craze unwarranted (6)22
low-carb diet craze (1)16
measuring and labeling carbohydrates (10)72
obesity and the low-carb craze (9)52
research summit seeks solution to obesity (3)69
taking out the carbs but keeping the taste (7)16
work continues on carbohydrate, fiber analysis (4)72

Coming Events
(1)70, (2)18, (3)26, (4)18, (5)22, (6)30, (7)24, (8)28, (9)22, (10)18, (11)26, (12)24

Communication
communicating the benefits of functional foods (12)128
conference focuses on ensuring the safety of the food supply (2)34
IFT issues update on foodborne pathogens (7)20
managing threats to scientific credibility (1)39
pathological science (11)108
research summit seeks solution to obesity (3)69

Company News
(1)10, (2)12, (3)8, (4)8, (5)6, (6)12, (7)8, (8)12, (12)10

Company/Professional Profile
Symrise: a blending of flavor giants (2)30

Consumer Trends column
exhibits hint at what's in store for consumers (9)80
flavors of the future (5)14
getting fresh (11)18
low-carb diet craze (1)16
new rules for ready-to-eat (2)16
portionability: the next generation of single-serve (3)18
push for protein, (12)18
sweet treats (8)18
taking sides (6)18

Corrections (1)77, (8)9

Culinary (see also Culinary Concepts column)
conference addresses product development, includes culinary challenge (1)71
culinary challenge brings excitement to show floor (9)66
culinary challenge teams at work (1)72

Culinary Concepts column
creating culinary flavors that match chef's gold standard (4)14
let's work together to deliver the culinary gold standard (5)16
meeting the challenge (1)18
taking out the carbs but keeping the taste (7)16
vinegar adds SAS to any product (8)22
working with suppliers to develop healthful foods that taste good (3)20

Dairy Products
bioguided processing: a paradigm change in food preparation (5)44
whey texturation: a way forward (7)50

Developing Foods Report
decreasing *trans* and saturated fatty acid content in food oils (1)23
developing ethnic foods and ethnic flair with spices (8)35
spice market expands (8)30
spices and ethnic foods (8)30
spices and seasonings of new and emerging cuisines (8)40
trans fats: status and solution (1)20

Education News column
AOCS announces research award recipients (8)90
aquaculture research facility opens at ISU, (12)103
Azzara receives Outstanding Alumni Award (4)86
Boon named Fulbright Scholar (7)91
Brown named visiting professor at University of Colorado, (12)103
CIA opens wine study center (1)77
Cincinnati universities to start culinary program (5)82
Clydesdale named National Associate (4)86
Crespo family donates $50,000 to Penn State (1)76
Georgia Tech receives Harwood Grant (1)76
Hasler joins Robert Mondavi Institute (6)184
ISU receives USDA grant (6)184
Keener wins food engineering award (5)82
Krochta wins $120,000 research grant (6)184
Labuza named Sigma Xi distinguished lecturer (4)86
Levine named head of Minnesota food science dept. (8)90
Marth receives NCI Laureate award (4)86
McEowen joins ISU faculty, (12)103
Min wins Innovator of the Year award, (12)103
Min receives research award (7)91
Moraru named Assistant Professor at Cornell (1)76
Purdue honors food industry professionals (1)77
Roberts wins Young Food Engineer Award, (12)103
Sathe honored at Florida State (1)77
Scholle donates $1.5 million to Purdue (1)77
Shetty receives Jefferson Fellowship (8)90
Students' prototypes highlight dairy ingredients (7)91
UGA selects Akoh as Distinguished Research Professor (6)184
Wisconsin welcomes Connelly as Assistant Professor (1)76
Wu and Hazen join Maine faculty (1)76

Employment
2003 IFT Membership Employment & Salary Survey (2)40

Encapsulation
flavor encapsulation: a convergence of science and art (7)40

Enzymes
enzymes: tools for creating healthier and safer foods (4)20

Ethnic Foods
developing ethnic foods and ethnic flair with spices (8)35
spices and ethnic foods (8)30
spices and seasonings of new and emerging cuisines (8)40

Fats and Oils
decreasing *trans* and saturated fatty acid content in food oils (1)23
enzymes: tools for creating healthier and safer foods (4)20
marketing of *trans* fat-free foods (1)20
trans fats: status and solution (1)20

SUBJECT INDEX *(continued)*

Feature Articles
bioguided processing: a paradigm change in food preparation (5)44
carbohydrates: to count or not to count (5)38
conference focuses on ensuring the safety of the food supply (2)34
cross-industry technology transfer (1)32
designing clinical trials to substantiate claims (10)28
DNA tests identifies animal species in food products (8)44
enzymes: tools for creating healthier and safer foods (4)20
fiery and frosty foods pose a challenge in sensory evaluation (5)32
flavor encapsulation: a convergence of science and art (7)40
functional foods: opportunities and challenges (12)35
how flow modeling benefits the food industry (3)32
identifying and preventing off-flavors (11)36
identifying food science & technology research needs (12)32
IFT honors achievement award winners and Fellows (10)40
managing food safety: a systematic approach (10)36
managing threats to scientific credibility (1)39
marketing of *trans* fat-free foods (1) 20
nanosensors identify pathogens in food (8)51
personalizing foods for health and preference (12)26
phenolic antioxidants and prevention of chronic inflammation (11)42
profile: Mattias Guentert (2)33
recreating flavors from nature (11)28
solving the obesity conundrum (6)32
Symrise: a blending of flavor giants (2)30
taste modification in the biotech era (5)24
total utilization of fish (3)28
understanding conjoint analysis (1)35
use of botanicals as biopreservatives in foods (2)20
whey texturation: a way forward (7)50

Flavor
fiery and frosty foods pose a challenge in sensory evaluation (5)32
flavor encapsulation: a convergence of science and art (7)40
identifying and preventing off-flavors (11)36
recreating flavors from nature (11)28
Symrise: a blending of flavor giants (2)30
taste modification in the biotech era (5)24

Food, Medicine, & Health column
clinical value of glycemic index unclear (7)18
dietary antioxidants—risk or relief? (11)20
dietary supplements and sports performance (10)17
is glucosamine a remedy or risk? (8)24
low-carb craze unwarranted (6)22
men's health—an opportunity for the food industry (9)18
nutrigenomics: from nutrition to genes, (12)20

Food Safety
conference focuses on ensuring the safety of the food supply (2)34
enzymes: tools for creating healthier and safer foods (4)20
here, there, everywhere: antibiotic-resistant foodborne pathogens (4)104
how flow modeling benefits the food industry (3)32
how now, mad cow? (1)100
managing food safety: a systematic approach (10)36
nanosensors identify pathogens in food (8)51
research summit seeks solution to obesity (3)69
use of botanicals as biopreservatives in foods (2)20

Foodservice
gourmet & specialty food trends (7)26
taking off & piling on: restaurants take new approaches (10)20

Functional Foods (see Nutraceuticals & Functional Foods)

Health (see also Food, Medicine, & Health column)
bioguided processing: a paradigm change in food preparation (5)44
carbohydrates: to count or not to count (5)38
decreasing *trans* and saturated fatty acid content in food oils (1)23
enzymes: tools for creating healthier and safer foods (4)20
how now, mad cow? (1)100
personalizing foods for health and preference, (12)26
phenolic antioxidants and prevention of chronic inflammation (11)42
solving the obesity conundrum (6)32
use of botanicals as biopreservatives in foods (2)20

IFT (see also IFT News column)
2003 IFT Membership Employment & Salary Survey (2)40
IFT honors achievement award winners and Fellows (10)40
IFT issues update on foodborne pathogens (7)20
Stabenow and Bonilla named IFT Congressional Science Award winners (6)20

IFT Achievement Award Winners
Barringer, Sheryl (10)40
Beuchat, Larry (10)40
Ebert, Andrew (10)41
Hartel, Richard (10)41
Hultin, Herbert O. (10)41
Iwaoka, Wayne T. (10)42
Knorr, Dietrich (10)42
Leveille, Gilbert A. (10)42
Manley, Charles (10)42
Otwell, W. Steven (10)42
Rasco, Barbara (10)43
Schneeman, Barbara (10)43
Shenouda, Soliman (10)43
Tetra Pak (10)44
Watkins, Bruce (10)43

IFT Annual Meeting + Food Expo, 2004
addressing the obesity epidemic (9)50
AMFE Web site now on-line (4)16
Annual Meeting program schedule (6)137
awards banquet to honor IFTers (5)18
behind the scenes (9)73
challenge of omega-3 fatty acids (9)56
chief food officials explore industry opportunities and challenges (9)34
child obesity initiatives (9)52
competitions & awards (9)40
culinary challenge brings excitement to show floor (9)66
focusing on calories and claims (9)51
IFT Food Expo® exhibitors (6)133
futurist Joel Barker to present keynote address (4)16
Hall of Honor inaugurated (5)18
highlights of the 2004 IFT Annual Meeting + Food Expo® (9)24
IFT President interviews keynote speaker (6)26
increasing satiety (9)51
innovations in healthy ingredients (9)54
keeping the food industry competitive (5)18
keynoter Barker sees food technology evolution (9)32
keynoter to discuss future of technologies (5)18
millennials: trend makers (9)56
monorail offers convenience and Internet access (4)16
new products pavilion provides global trends & tastings (9)74
new products pavilion offers global trends and tastes (4)16
obesity a popular issue in technical program (9)50
obesity and the low-carb craze (9)52
official post-show coverage (9)24
official preview of IFT's 2004 Annual Meeting + Food Expo® (6)39
products discussed in the sessions (9)77
program and exhibit directory online (5)18
safety of organic foods (9)58
service providers come together at Food Expo® (6)122
special presentations at IFT's Food Expo® (5)18
student activities (9)36
third hot topic session to address mad cow disease (4)16
tour through IFT's Food Expo® (9)111
well-rounded program offers many opportunities (4)16

IFT Annual Meeting + Food Expo, 2005
abstract "help desk" available for 2005 Annual Meeting (10)80
call for abstracts for 2005 IFT Annual Meeting (10)80
call for forum proposals (11)87
call for international competition entries (11)87
call for new Products & Technologies papers (11)87
call for nomination for IFT Fellows (11)86
call for nominations for Achievement Awards (11)86
call for videos for 2005 Annual Meeting (11)87
IFT Food Expo® moves to 3-day format (12)99
new name for international award (11)86
symposium proposals due September 1 (8)89

IFT Authoritative Report
managing food safety: a systematic approach (10)36

IFT Expert Panel Report
functional foods: opportunities and challenges (12)35

IFT Fellows
BeMiller, James N. (10)44
Cousin, Maribeth A. (10)44
Doores, Stephanie (10)45
Duxbury, Dean (10)45
Flora, Lewis Franklin (Frank) (10)45
Flowers, Jr., Russell S. (10)45
Hefle, Susan L. (10)45
Herzog, Leslie J. (10)46
Hoover, Dallas G. (10)46
Hung, Yen-Con (10)46
Hwang, Lucy Sun (10)46
Moskowitz, Howard R. (10)46
Nakai, Shuryo (10)47
Petersen, Barbara J. (10)47
Price, Ralph L. (10)47
Sathe, Shridhar K. (10)47
Schmidt, Shelly J. (10)48
Sebranek, Joseph G. (10)48

IFT International Food Safety and Quality Conference and Expo
research summit seeks solution to obesity (3)69

IFT News column
abstract "help desk" available for 2005 Annual Meeting (10)80
April *JFS* in print (5)82
ballot proposes streamlining the election process (9)138
call for abstracts for 2005 IFT Annual Meeting (10)80
call for forum proposals (11)87
call for international competition entries (11)87
call for new Products & Technologies papers (11)87
call for nomination for Achievement Awards (11)86
call for nomination for IFT Fellows (11)86
call for videos for 2005 Annual Meeting (11)87
conference addresses product development, includes culinary challenge (1)71
culinary challenge teams at work (photos) (1)72
Education Division announces writing competition (12)100
elections to be held on-line (12)100
February 7 deadline for Congressional Science Fellow applications (1)74
first IFT Press book published (7)88
Green to assume Student Association presidency (9)138
IFT and Marcel Dekker offer book discount (4)85
IFT and RCA to present collaborative event at Food Expo (1)71
IFT Annual Meeting + Food Expo® dates set through 2010 (4)85
IFT award winners and Fellows to be honored at Awards Banquet (6)181
IFT buyer guides available online (2)89
IFT Food Expo® moves to 3-day format (12)99
IFT holds obesity briefing for Congress (12)99
IFT issues statement on mad cow disease (1)74
IFT members offered discount on online management courses (6)181
IFT offers eight pre-Annual Meeting continuing education programs (5)81
IFT part of nonprofit journals group (6)181
IFT recognizes 50-year members (4)85
IFT scholarship and fellowship recipients, 2004-05 (12)101
IFT staff changes (3)69
IFT supports sodium reduction recommendations (3)69
IFT wants you! (8)89
IFT's MacAulay wins ADA Young Dietitian Award (8)90
IFTers cited as innovaters (2)89
Iraqi scientists seek donation of IFT publications (9)138
JFS chosen as high-priority serial (6)181
JFS papers to be posted on-line before printing (1)74
latest issue of *Journal of Food Science Education* available (12)100
latest issue of online education journal published (2)89
Lawson chosed IFT's 2004-05 President-Elect (9)137
Lloyd Hall inducted into Inventors Hall of Fame (5)81
March *JFS* in print (4)85
Mermelstein named executive editor, Swientek editor-in-chief (12)99
new name for international award (11)86
other staff changes (2)90
Philadelphia section offers scholarships (12)101
Pierson retires as Director of Field Services (2)90
research summit seeks solution to obesity (3)69
Santerre appears on NPR's Science Friday program (9)138
staff changes at IFT (7)88
Stone becomes IFT's 2004-2005 President (9)137
symposium proposals due September 1 (8)89

IFT Newsmakers column
educating food reporters (10)83
food coverage finds niche between war, SARS coverage (1)80
food coverage gets squeezed (7)94
food scientists are people, too (3)72
old news is good news (5)83
reporting: IFT provides everything but the byline (11)91
wall-to-wall mad cow coverage (2)91
what scares food scientists? Headline writers (4)87
when a little effort goes a long way (12)104

IFT Regional Section & Division Meetings
(1)74, (4)85, (10)82, (11)90, (12)101

IFT Regional Section & Division News
(7)90, (10)80, (11)89, (12)100

IFT Regional Section & Division People
(1)74

IFT Research Needs Report
identifying food science & technology research needs, (12)32

IFT Research Summit
Research summit seeks solution to obesity (3)69

IFT Scholarship and Fellowship Recipients, 2004-05
(12)101

IFT's 2004 Annual Guide to Food Industry Services
(3)73

Industry News column
ADM opens culinary center (6)10
alliance to address dairy industry safety and quality (1)8
are childhood obesity initiatives shaping up? (9)10
Busta to lead food protection consortium (10)10
Cole named director of NCFST (8)10
companies back taste-receptor research (1)8
database helps predict bacteria behavior (6)12
Deromedi named CEO of Kraft (1)8
DSM opens world's largest vitamin E plant (11)10
Ecolab joins effort in promoting food biosecurity (8)12
FAO says fight hunger today to reduce obesity tomorrow (5)6
FDA approves use of *Olean* (7)8
first bag-in-box plant in China (1)8
flavor training program celebrates 25th anniversary (10)10
food allergies affect 1 in 25 Americans (5)6
food safety leaders form food irradiation council (4)8
Fraser named director of FDA's Office of Regulations and Policy (10)10
group calls for voluntary country-of origin labeling (3)8
Heinz plans new R&D center (11)10
historic library aids flavor chemists (2)8
IFF donates to Monell's capital campaign (12)10
ILSI paper available online (7)8
Irish caramel color plant celebrates 25 years (1)8
IUFoST/FAO seeks research for database (12)10
Kao expands sales area of *Enova Oil* (8)10
Kerry expands flavor business (7)8
Kerry Group to acquire Quest Food ingredients (4)8
Kraft changes global organization structure (2)11
Kraft improves nutrition labels, (12)10
Kraft partners with South Beach Diet creator (8)12
Kraft to eliminate 600 jobs (3)8
let them eat (ice cream)cake! (9)12
Longping and Jones named 2004 World Food Prize winners (9)10
MetaMorphix helps companies improve meat quality (8)10
new center focuses on trigeminal research (1)8
new soybean promises healther soy oil (4)8
new to Food Expo: Global New Products Trends Showcase ;2)11
NSF announces Leadership Award winners (6)10
number of diabetics expected to grow (6)10
Ovid and Nestle form electronic library (7)8
partnership addresses how to prevent foodborne illness (3)8
Proliant announces new corporate structure (1)8
Ruby Tuesday to list nutrition information on menus (5)6
Sartori Foods celebrates 65 years (12)10
Smart Spot identifies healthier PepsiCo products (9)10
study targets food distribution chain (7)8
super downsize McDonald's fries and drink (4)8
SureBeam closes, files for Chapter 7 bankruptcy (2)11
Tarantino named Director of Food Additive Safety (8)12
Tetra Pak cartons included in museum display (8)10
Tetra recart package debuts in U.S. (9)10
Thinkage, Georgia Tech develop temperature sensor (1)8
Vermont requires labels for GM seeds (6)10

Ingredients (see also Ingredients column)
decreasing *trans* and saturated fatty acid content in food oils (1)23
marketing of *trans* fat-free foods (1)20
spice market expands (8)30
spices and ethnic foods (8)30
spices and seasonings of new and emerging cuisines (8)40
total utilization of fish (3)28
trans fats: status and solution (1)20
use of botanicals as biopreservatives in foods (2)20
whey texturation: a way forward (7)50

Ingredients column
a changing perception of taste perception (11)56
cheeseburger . . . cheeseburger . . . no bun (3)36
confection: a sweet acronym (10)50
dawning of the age of proteins (2)56
emerging ingredients: viewing their impact on the future (7)56
fats: in *trans*-ition (4)52
flavor enhancement: taking the mask off (8)56
hitting the jackpot with new ingredients! (6)40
how strategic alliances affect product development (12)81
new kids on the block showcase emerging ingredients (7)66
portraits in color (1)42
symposium highlights umami and amino acids (11)67
21 prototypes provide clues to future formulating (9)96
what's cooking in the kitchen (5)50

In Memoriam
Almanza, David (1)79
Blumer, Thomas Nelson (3)71
Bollenback, George Norris (3)71
Feliciotti, Enio (1)78
Hollender, Robert A. (1)79
Jackson, Robert C. (1)79
Kirkpatrick, James W. (1)79
Knapp, Fredrick W. (1)79
Kolari, Olaf E. (1)79
Lynt, Richard K. (1)79
MacGillivray, James D. (3)71
Mahoney, John F. (3)71
Maleeny, Robert T. (3)71
McGill, Charles E. (1)79
Mendez, Eduardo Jr. (11)88
Milner, Max (1)78
Peters, Frank E. (3)71
Rothchild, Harold (1)79
Savage, Helen L. (1)78
Serfling, Steven L. (1)78
Share, Richard A. (3)71
Speck, Marvin L. (1)78

Irradiation
food irradiation future still bright (7)112
food irradiation is already here (11)22
irradiation and food safety (11)48

Laboratory (see also Laboratory column)
designing clinical trials to substantiate claims (10)28
DNA tests identifies animal species in food products (8)44
nanosensors identify pathogens in food (8)51

Laboratory column
acrylamide in food: cancer risk or mystery? (12)91
advances in food sampling (2)76
California's Proposition 65 poses problem (12)91
dietary fiber: still no accepted definition (5)70
keeping tabs on *listeria* (7)74
measuring and labeling carbohydrates (10)72
new test methods highlight this year's Food Expo (6)102
phase transitions in foods: basic science for the modern scientist (8)78
testing for BSE (3)58
testing for mycotoxin control (11)78
traceability of seafood products (1)60
work continues on carbohydrate, fiber analysis (4)72

Letters
Clemens and Pressman reply (12)105
color articles beautifully done (4)88
glass transition well described (12)106
glucosamine is safe and effective (12)105
incorrect Web site for recipes (4)88
Kelco and USDA shared award (3)70
lignins and lignans (4)88
phase transitions article thoroughly researched (12)106
photos show improper sanitation (4)88

Marketing
carbohydrates: to count or not to count (5)38
marketing of *trans* fat-free foods (1)20
spice market expands (8)30

Microbiology
conference focuses on ensuring the safety of the food supply (2)34
here, there, everywhere: antibiotic-resistant foodborne pathogens (4)104
managing food safety: a systematic approach (10)36
nanosensors identify pathogens in food (8)51
research summit seeks solution to obesity (3)69
use of botanicals as biopreservatives in foods (2)20
IFT issues update on foodborne pathogens (7)20

Mixing
cross-industry technology transfer (1)32
how flow modeling benefits the food industry (3)32

Modeling
how flow modeling benefits the food industry (3)32

Nanotechnology
cross-industry technology transfer (1)32
nanosensors identify pathogens in food (8)51

New Products
(1)15, (2)14, (3)16 (4)10 (5)12, (8)18, (12)16

News & Analysis
(1)8, (2)8, (3)8, (4)8, (5)6, (6)10, (7)8, (8)10, (9)10, (10)6, (11)10, (12)10

Nutraceuticals (see also Nutraceuticals & Functional Foods column and Nutraceuticals & Functional Foods Buyer's Guide)
bioguided processing: a paradigm change in food preparation (5)44
communicating the benefits of functional foods (12)128
designing clinical trials to substantiate claims (10)28
functional foods: opportunities and challenges (12)35
top 10 functional food trends 2004 (4)28

Nutraceuticals & Functional Foods Buyer's Guide
(12)41

Nutraceuticals & Functional Foods column
all tea'd up (7)71
controlling cholesterol (11)73
dietary antioxidants (10)67
fortifying with fiber (2)71
going with the grains (2)71
in search of more energy (3)55
meeting children's nutritional needs (4)65
nutraceuticals provide floor show in Las Vegas (6)87
nutrition in a nutshell (1)55
powerful produce (5)65
powerhouse proteins soy and whey have bright future (8)71

Obesity
addressing the obesity epidemic (9)50
carbohydrates: to count or not to count (5)38
child obesity initiatives (9)52
enzymes: tools for creating healthier and safer foods (4)20
focusing on calories and claims (9)51
getting off the road to obesity (5)100
IFT holds obesity briefings for Congress (12)100
increasing satiety (9)51
obesity a popular issue in technical program (9)50
obesity and the low-carb craze (9)52
solving the obesity conundrum (6)32

Packaging column
astronautical food odyssey (3)64
bottling in aluminum (12)97
case for case-ready red meat (8)84
delivering the gold standard to market via hurdle technologies (5)76
multi-component plastics: smart polymers for smart packaging (1)64
open and shut: accessing package contents (7)82
packages become more active and intelligent (11)84
packaging for foodservice (2)82
packaging scene investigation: *PSI Las Vegas* (9)108
papers and exhibits provide insights into packaging future (6)119
portion packaging provides convenience and economy (4)78
stand up for flexible pouches (10)77

People News

Preservatives
use of botanicals as biopreservatives in foods (2)20

President's Page
enhancing the membership experience (12)8
looking ahead, making changes (9)8
on being a volunteer (11)8
planning for New Orleans (10)8
reaching IFT's ambitious goals (8)8
what happens in Las Vegas *doesn't* stay there (6)8

Processing (see also Processing column)
bioguided processing: a paradigm change in food preparation (5)44
cross-industry technology transfer (1)32
decreasing *trans* and saturated fatty acid content in food oils (1)23
flavor encapsulation: a convergence of science and art (7)40
how flow modeling benefits the food industry (3)32
total utilization of fish (3)28
trans fats: status and solution (1)20
use of botanicals as biopreservatives in foods (2)20
whey texturation: a way forward (7)50

Processing column
aseptic processing: new and old (11)80
coating is critical to many foods (8)82
crystallization is key in confectionery processes (12)94
extraction—a widely used complex process (7)78
fermentation—new products from an old process (10)75

SUBJECT INDEX *(continued)*

maintenance plays an important role (9)106
many nonthermal processing papers this year (6)110
many options for size reductions (1)62
mixing of solids (2)80
new products & technologies sessions present innovations (9)105
ozone—cure for some sanitation problems (4)75
pilot plants: different styles for different folk (5)72
scaling up food processes (3)62

Products & Literature
(1)67, (2)86, (4)81, (5)79, (7)86, (8)87

Products & Technologies
(1)42, (2)56, (3)36, (4)52, (5)50, (6)40, (7)56, (8)56, (9)96, (10)50, (11)56

Proteins
enzymes: tools for creating healthier and safer foods (4)20

Quality
conference focuses on ensuring the safety of the food supply (2)34
research summit seeks solution to obesity (3)69

Regulations
dietary fiber: still no accepted definition (5)70
farmed salmon: caught in a numbers game (2)108
GMO traceability requirements expand (3)124
biotech labeling still unresolved in Codex (6)208
making Codex more effective (10)100

Research Needs
identifying food science & technology research needs (12)32
research summit seeks solution to obesity (3)69

Salary Survey
2003 IFT Membership Employment & Salary Survey (2)40

Science, Communications, & Government Relations column
food irradiation is already here (11)22
IFT issues update on foodborne pathogens (7)20
Stabenow and Bonilla named IFT Congressional Science Award winners (6)20

Scientific Status Summary
irradiation and food safety (11)48

Seasonings (see Spices)

Sensory Evaluation
fiery and frosty foods pose a challenge in sensory evaluation (5)32
understanding conjoint analysis (1)35

State-of-the-Industry Report
gourmet & specialty food trends (7)26
taking off & piling on: restaurants take new approaches (10)20
top 10 functional food trends 2004 (4)28

Societies & Associations
AACC announces 2004 award winners (12)12
AACC installs new board (11)14
AACC installs new officials (1)12
AACC names 2003 award winners (1)12
AACC to define "whole grain" (5)12
ACF call for nominations (3)12
ADA appoints Laramee as President (7)14
ADSA honors UW researcher (1)12
AIFP elects Acuff to executive board (7)14
American Egg Board unveils new portfolio (9)16
AMI launches meat safety Web site (11)14
AMSA presents Signal Service Award (12)12
AOCS announces research award recipients (8)90
AOCS elects Johnson as president (5)12
beef Web site provides industry resources (12)12
CAST report recommends food safety strategies (3)12
Condie named President and CEO of CRA (7)14
Cooks society chooses presidium leader (9)16
CRA appoints Government Affairs Director (3)12
CRA honors corn refining research efforts (1)12
dairy science award named in honor of Haines (7)14
Daniel wins Entrepreneur of the Year Award (8)17
Flavor Heritage Society founded (9)16
FMI awarded two USDA grants (11)14
FMI expands food safety program in Mexico (12)12
FMI names Roerink Director of Research (10)14
food safety award presented to FAAN (7)14
Gottscho and others honored by PEF (1)14
Horton wins ADPI Award of Merit (6)14
Howell elected to ASAE Board (11)14
IAFIS names chair and elects board members (8)17
IAFoST elects Bourne as president (6)14
IAFP names president and executive board members (11)14
IDDBA elects 2003-04 officials (1)12
introductory food engineering text available online (5)12
Jack in the Box receives IAFP's Black Pearl Award (8)17
Lehman joins GMA as Director of Public Affairs (10)14
media campaign showcases coffee's health benefits (10)14
Morey named ASAE Fellow (10)14
NFPA names Ferenc EVP and Chief Science Officer (9)16
NFPA names security director (6)14
NFPA's Cady announces retirement (10)14
NRA grants four scholarships (1)14
Paredes-Lopez to lead Mexican Academy of Sciences (8)17
PFSE appoints Executive Director (1)14
PMMI Executive Committee begins term (3)12
RCA announces 2004 award winners (6)14
RCA announces elections and appointments (6)14
RCA elects two new officers (9)16
Shipman assumes executive position with NFPA (12)12
Small resigns as AIB president (8)17
Small named ISSI President (1)12
Smith reelected to head NFRA board (1)12
three induced into frozen foods hall of fame (1)12
von Zastrow named Senior Director of Field Services for FMI (11)14
Welcome named IFFA President (3)12
WFF presents leadership awards (6)14
Women's Foodservice Forum hires three Directors (7)14

Spices
developing ethnic foods and ethnic flair with spices (8)35
spice market expands (8)30
spices and ethnic foods (8)30
spices and seasonings of new and emerging cuisines (8)40
use of botanicals as biopreservatives in foods (2)20

Statement of Ownership
(12)106

State-of-the-Industry Report
gourmet and specialty food trends (5)26
taking off & piling on: restaurants take new approaches (10)20
top 10 functional food trends 2004 (4)28

Sustainability
what does "sustainability" mean to the food industry (9)160

Taste modification
taste modification in the biotech era (5)24

Technology Transfer
cross-industry technology transfer (1)32

Trends (see also Consumer Trends column)
gourmet & specialty food trends (5)26
spices and ethnic foods (8)30
spices and seasonings of new and emerging cuisines (8)40
taking off & piling on: restaurants take new approaches (10)20
top 10 functional food trends 2004 (4)28

Washington News column
(1)17, (2)17, (5)20, (7)22, (8)26, (9)20, (10)16, (11)24, (12)22

Waste Management
total utilization of fish (3)28

World Food Prize
Longping and Jones named 2004 World Food Prize winners (9)10

AUTHOR INDEX

Acuff, Gary A. (10)36
Allison, Ann- Marie (5)32
Ashman, Hollis (1)35
